Health and Social Care Integration

The Model

11 Committees considered the recommendations contained within the final options appraisal report. This presented up to date information, regarding Health and Social Care Integration which was commissioned by Shetland's Community Health Partnership (CHP) Committee, a sub-committee of Shetland NHS Board. This also included a brief summary of work in progress under the three main work streams:

- Governance
- Management and the single management model
- Service delivery through multidisciplinary teams in localities.

All 11 committees approved the option for the body corporate model. This is now the chosen model of integration for health and social care services.

Body Corporate

For the body corporate model, the Health Board and Local Authority delegate the responsibility, for planning and resourcing service provision of adult health and social care services to an Integration Joint Board.

Services to be included

The Draft Regulations set out the functions of Local Authorities that must be delegated as they relate to the following services for adults:

Social work services for adults and older people;
Services and support for adults with physical disabilities,
Learning disabilities;
Mental health services;
Drug and alcohol services;
Adult protection and domestic abuse
Carers support services;
Community care assessment teams;
Support services;
Care home services;
Adult placement services;
Health improvement services;
