Notes:

- (i) The actual charge to residents is calculated following a financial assessment undertaken by Social Care Service. The Council's Equalisation of Charges policy and the subsidy from Shetland Charitable Trust to support the Rural Care Model in Shetland means that the full charge for a care place in any of the Council run care homes will be £1,898 per week and that anyone assessed as able to pay the full charge will be entitled to the national Free Personal Care payment of £248.70 per week so the net charge would be £1,649.30 per week.
- (ii) These services are means tested - charging thresholds, taper levels and discretions are set out in the Care and Support Charging Policy.
